ABOUT ISBE

The Institute for Evidence-Based Health (ISBE) is a private independent non-profit organization, founded on 12 September 2019. ISBE is an umbrella organization that bridges Researchers, Academia, Private Partners, and Patients' Representatives.

The trade names, graphics and logos of ISBE contained herein are registered trademarks of the Institute for Evidence-Based Health (ISBE). All other party trademarks, tradenames, product names, graphics, and logos contained herein are the property of their respective owners. Their display is not intended to imply a relationship with, or endorsement or sponsorship of ISBE unless stated otherwise.

The **Mission** of ISBE is to advance knowledge by inspiring and fostering collaborative evidence-based health research that informs healthcare policies and practice and transforms healthcare.

Our **Vision** goes beyond the now. Our main goal is to make ISBE nationally and internationally recognized as a leader in transforming the healthcare system.

OUR VALUES

COLLABORATION

Collaboration between researchers, healthcare professionals, policy makers and consumers/patients as an essential step for delivering useful healthcare solutions to society.

INNOVATION

Innovation as the key to breakthrough thinking that leads to significant systems improvements.

EVIDENCE-BASED

Development and use of the best available

SCIENTIFIC AND RESEARCH EXCELLENCE

Striving to deliver results with exceptional quality and value.

VALUE-BASED HEALTH CARE

improvements that make a difference in healthcare delivery at affordable and fair costs.

HEALTHCARE PROVIDERS' ROLE

Develop evidence supporting the essential roles of pharmacists, physicians, and other healthcare providers in the delivery of appropriate, effective and safe healthcare.

EDUCATION AND TRAINING

Developing education and skill building as a

OUR PORTFOLIO OF RESEARCH SERVICES

- ✓ **Evidence Synthesis –** Literature Reviews, Systematic Reviews & Meta-Analysis.
- ✓ **Epidemiology & Real-World Evidence (RWE)** Burden of Disease & Cost of Illness, Patient Characteristics, Patient Journey, Treatment Patterns, Effectiveness (Clinical Outcomes and Adverse Events).
- ✓ Health Technology Assessment (HTA) & Market Access PICO, Literature Reviews, Advisory Boards, Clinical Evidence, Statistical Analysis, RWE, Economic Outcomes, Budget Impact, Writing, Post-Submission Support.
- ✓ Health Economics & Outcomes Research (HEOR) Cost Minimization, Cost-Effectiveness, Cost-Utility.
- ✓ Patient-Centered Outcomes PROMs, PREMs, Clinician-Reported, Observer-Reported, and Performance-Related Outcomes using Patient Surveys, Interviews, Focus Groups, or Mixed Methods.
- ✓ Patient Preferences Discrete Choice Experiments (with/without Willingness-To-Pay).
- ✓ **Expert Consensus –** using web-Delphi Panels or Decision Analysis.
- ✓ Policy Studies Mixed Methods, Horizon Scanning, Interviews, Advisory Boards, Good Practice, Policy Briefs, Call to Action.
- ✓ Health Services Research Effectiveness, Cost-Effectiveness, Cost-Benefit, ROI, PREMs.
- ✓ Value-Based Health Care Patient Pathway, Outcomes, Cost-Analysis, and Value in Healthcare Units.
- ✓ Artificial Intelligence in Health Evidence for Clinical Decision Support Systems.
- ✓ Value Communication Tools Publication, Data Visualization, Training & Workshops, Conferences.
- ✓ Medical Writing Manuscripts, Abstracts & Posters, Study Protocols.

B E

EXECUTIVE SUMMARY

The year 2023 was our fifth financial year (fourth financial full year) marked by the

continuing war in Ukraine with political, economic, and health impacts on Portugal.

In 2023, **ISBE** and our Founding Partner Associate APIFARMA elected new Governing

Bodies. Three new Associates were admitted to ISBE.

In 2023 we continued our policy of cost containment and invested in outreach

activities to promote **ISBE's** expanding research portfolio and diversify our sources

of revenue.

Despite the increased volume of funded projects our revenue fell below the projected

budget and vs 2022 due to price adjustments and no deferred revenue from 2022 to

2023. In addition, decision processes in pharmaceutical companies took longer than

usual and we experienced some setbacks or considerable delay in contract awards.

In 2023, we had revenue income from Partner Associates MedicineOne and APIFARMA

although almost all revenue stems from tech and pharmaceutical companies.

Despite challenges, thanks to the hard work of our Associates, Governing Bodies,

Executive Staff, Researchers, Sponsors, and Donors, we accomplished 21 research

projects (17 funded) in 14 disease areas covering 7 study types with 30 researchers

and research consultants from 14 research organizations and 53 experts. We co-

authored 7 papers, presented 13 posters, co-supervised 8 Thesis, produced 45

Newsletters, and organized 9 events and short courses. A total of 19 sponsors and 7

donors funded our work.

We ended the year at a financial loss, albeit the impact on equity funds was

counterbalanced by the sum of reserves and the profit carried forward from 2022.

1.2. Political, Economic, and Health Environment

2023 was marked by the continuing Ukraine War, a new conflict erupted between Israel and Hamas, which led to an increase in oil and natural gas prices in Europe, Finland joined NATO, and political changes occurred in Poland and the Netherlands. Portugal's Prime Minister submitted his resignation which was accepted by the President. The 2024 State Budget was approved. Elections were held in March 2024 with a new Government elected albeit in minority which may pose threats to the political and economic stability.

In 2023, economic projections of Banco de Portugal (as of Mar. 2024) show the Gross Domestic Product (GDP) increased by 2.3% in Portugal (0.5% in the Euro Zone). The inflation rate increased by 5.3% (5.4% in the Euro Zone). The unemployment rate rose 6.5% (6.5% in the Euro Zone). The Public Accounts show a Public Debt ratio to GDP of 101.4%. Projections for 2024 point to worse economic growth albeit some slowdown in inflation rate.

In May 2023, WHO declared the end of the COVID-19 global emergency, in the same year that marked WHO's 75th anniversary. In 2023, the Nobel Prize of Medicine was awarded to researchers for relevant discoveries enabling the development of effective mRNA vaccines against COVID-19. Since the release of ChatGPT in November 2022, we saw the continued rise of generative Artificial Intelligence (AI) models with applications across various industries including health research throughout 2023.

In 2023, the NHS budget execution (as of Jan. 2024) shows a net loss of 435.1 million euro with a 4.4% increase in the NHS expenditure. The categories contributing to the expenditure variation were: other expenditure described as investment (+17.6%), staff costs (+7.0%), clinical consumable material (+6.3%), hospital pharmaceutical medicines and products (+4.8%), community pharmacy-dispensed medicines and

INSTITUTO DE SAÚDE BASEADA NA EVIDÊNCIA (ISBE)
Faculdade de Medicina da Universidade de Lisboa | Edifício Reynaldo dos Santos, Piso 3
Av. Prof. Egas Moniz | 1649-028 Lisboa, Portugal
NIPC: 515 563 153

products (-1.3%), diagnostic and treatment procedures (-4.1%), and public-private partnerships (-7.0%). There are signs of severe constraints in service level provision, including in the time to access innovative therapies.

In 2023, the European Medicines Agency (EMA) recommended 77 medicines for marketing authorization of which 39 had a new active substance in the following therapeutic areas: cancer (13), neurology (7), vaccines (3), hematology (3), dermatology diagnostic endocrinology (3),agents (2),(2),gastroenterology/hepatology (1),(2), cardiovascular metabolism (1),pneumology/allergology (1), and infections (1). EMA considered there were important contributions to public health in cancer, cardiovascular, hematology, metabolism, neurology, and vaccines.

The growing innovation pipeline created some opportunities for **ISBE** despite slower decision processes in pharmaceutical companies.

2. RESEARCH PROJECTS

In 2023, we conducted **21** (+7 vs 2022) research projects, of which **17** (+6 vs 2022) were funded by **13** Sponsors, in **14** disease areas: Oncology (4), Multidisease (3), Cardiovascular (2), Digital Health (2), Vaccines (1), Hematology (1), Chronic Pain (1), Kidney Disorder (1), Neurology (1), Respiratory (1), Immunology (1), Immunodeficiency Disorders (1), Pharmacy Patient Care (1), and Mental Health (1).

These research projects covered **7** study types: epidemiology/real-world evidence (RWE) (8), health technology assessment (HTA)/market access (4), evidence synthesis (3), patient-centered outcomes (2), policy (2), expert consensus (1), health services research (1).

E S

Annual Report & Financial Statements 2023

We concluded 11 projects, and the remaining 10 are to be continued in 2024.

For some projects, we do not disclose the name, therapy, or sponsor to ensure confidentiality as per contracts. In these circumstances, we just briefly report on the type of research and broad disease area covered.

2.1. Funded Research

We concluded deliverables for the following 10 funded projects:

[MULTIDISEASE]: Literature Review (M1®KU)

In 2023, <u>ISBE</u> produced 240 structured summaries synthesizing selected relevant high-quality medical papers to be integrated into a Clinical Decision Support System (MedicineOne Electronic Medical Record), supporting clinical knowledge updates of General and Family Medicine and Internal Medicine physicians. This project involved five <u>ISBE</u> researchers. This project is to be continued in 2024.

[MULTIDISEASE]: Policy Horizon Scanning

ISBE conducted fieldwork in five disease areas in Europe with a focus on three countries. In 2023, we concluded the agreed deliverable. This project involved three **ISBE** researchers.

[IMMUNOLOGY]: Expert Consensus

ISBE concluded the Delphi panel fieldwork and a manuscript was submitted for publication. This project involved three **ISBE** researchers and 13 Experts.

E S E

Annual Report & Financial Statements 2023

[CARDIOVASCULAR]: Epidemiology/Real-World Evidence

This funded project is part of an international study conducted in other countries. In 2023, **ISBE** concluded a feasibility study for a real-world evidence study. This project involved two **ISBE** researchers and 10 experts.

[ONCOLOGY]: Epidemiology/Real-World Evidence

In 2023, **ISBE** concluded the agreed deliverable on treatment patterns. This project involved one **ISBE** researcher.

[ONCOLOGY]: Epidemiology/Real-World Evidence

In 2023, <u>ISBE</u> concluded the agreed deliverable on treatment patterns and healthcare resource use. This project involved one <u>ISBE</u> researcher.

[CHRONIC PAIN]: Epidemiology/Real-World Evidence

In 2023, **ISBE** concluded the agreed deliverable on treatment patterns. This project involved one **ISBE** researcher.

[KIDNEY DISORDER]: Epidemiology/Real-World Evidence

In 2023, <u>ISBE</u> concluded the agreed deliverable for this consulting project. This project involved one <u>ISBE</u> researcher.

[HEMATOLOGY]: Health Technology Assessment/Market Access

In 2023, **ISBE** concluded the agreed deliverable. This project involved two **ISBE** researchers.

Annual Report & Financial Statements 2023

[VACCINES]: Health Technology Assessment/Market Access

In 2023, <u>ISBE</u> concluded the agreed deliverable. This project involved two <u>ISBE</u>

researchers.

We initiated the following 7 funded projects:

[ONCOLOGY]: Epidemiology/Real-World Evidence

In 2023, **ISBE** initiated the agreed deliverable on this retrospective study. Project to

be concluded in 2024. This project involves one **ISBE** researcher.

[ONCOLOGY]: Epidemiology/Real-World Evidence

In 2023, **ISBE** initiated the agreed deliverable on treatment patterns. Project to be

concluded in 2024. This project involves one **ISBE** researcher.

[CARDIOVASCULAR]: Epidemiology/Real-World Evidence

This project is a follow-up to a feasibility study concluded in 2023. In 2023, ISBE

was awarded a second contract to conduct the actual RWE study using patient-level

data from databases and initiated preliminary work. Project to be conducted in 2024.

[RESPIRATORY]: Health Technology Assessment/Market Access

In 2023, ISBE conducted a literature review, PICO assessment and prepared the

Expert Panel. Project to be concluded in 2024. This project involves two **ISBE**

researchers.

18

[IMMUNODEFICIENCY DISORDERS]: Health Technology
Assessment/Market Access

In 2023, **ISBE** initiated this study providing scientific support in a market access dossier for a new product. Project to be concluded in 2024. This project involves two **ISBE** researchers.

[DIGITAL HEALTH]: Policy Mixed Methods

In 2023, <u>ISBE</u> concluded the literature review. The qualitative study will be conducted and concluded in 2024. This project involves three <u>ISBE</u> researchers.

[PHARMACY PATIENT CARE]: Health Services Research

In 2023, we initiated scientific consulting support for pharmacies. This consulting will be continued in 2024 to a short list of pharmacies candidates to "Prémio Tecnigen Farmácias Comunitárias 2023-2024". This project involves two **ISBE** researchers.

2.2. ISBE-Initiated *Pro Bono* Research (Not Funded)

We concluded deliverables for the following 3 pro bono projects:

[NEUROLOGY]: ICHOM Set of Patient-Centered Outcome Measures

This project is led by the <u>International Consortium for Health Outcomes</u>
<u>Measurement (ICHOM)</u> and involves several research groups across countries, including Portugal (<u>ISBE</u>).

INSTITUTO DE SAÚDE BASEADA NA EVIDÊNCIA (ISBE)
Faculdade de Medicina da Universidade de Lisboa | Edifício Reynaldo dos Santos, Piso 3

Faculdade de Medicina da Universidade de Lisboa | Edifício Reynaldo dos Santos, Piso 3
Av. Prof. Egas Moniz | 1649-028 Lisboa, Portugal
NIPC: 515 563 153

E S

Annual Report & Financial Statements 2023

[MULTIDISEASE]: Choosing Wisely Portugal (CWP)

This project is led by the Portuguese Medical Society [Ordem dos Médicos]. The main

aim of the CWP project is to address the problem of resource overuse in medical

systems. In Portugal, CWP has published more than 200 recommendations.

In 2023, the research team, involving **ISBE**, collaborated on **5** new

recommendations. Project to be continued in 2024.

More information about this project can be found **HERE**.

[DIGITAL HEALTH]: Evidence Synthesis & Awareness

This project is led by an **ISBE** research consultant on Digital Health.

In 2023, we produced 11 scientific newsletters of evidence synthesis on digital health.

We initiated the following pro bono project:

[MENTAL HEALTH]: Patient-Centered Outcomes Research

This project is led by **ISBE** in collaboration with **ISPA**, the **University of Exeter**, and

Imperial College London.

In 2023, ISBE initiated preliminary work for a retrospective longitudinal observational

RWE study using Patient-Centered Outcomes routinely collected in a practice clinical

setting under a collaborative agreement.

- 2 Master Thesis in Epidemiology (<u>FMUL</u>)
- 1 Master Thesis in Public Health (ENSP/NOVA)
- 1 Integrated Master Thesis in Medicine (<u>FMUL</u>) ongoing
- 2 Integrated Master Thesis in Pharmacy (<u>IUEM</u>)

ISBE also served as a research lab for **1** Ph.D. lab rotation (at request of **FFUL**).

<u>ISBE</u> researchers were Juri members of **6** external academic examinations:

- 1 for Full Professor in Economics and Health Management (FMUP)
- 2 for Associate Professor in Clinical Research and Translational Medicine (<u>Universidade do Algarve</u>) and in Clinical and Health Services Research (<u>FMUP</u>)
- 1 for Assistant Professor (FMUC)
- 1 for Ph.D. Thesis Defense in Public Health (ENSP/NOVA).
- 1 for Master Thesis Defense in Health Management (ENSP/NOVA)

6. SCIENTIFIC NEWSLETTER

ISBE and **Cochrane Portugal** produced **45** Newsletters in 2023 under Open Access, each containing 1 summary of high-quality evidence synthesis on different topics of interest to our public.

This Newsletter has over 2, 589 downloads via Repositório UL.

The top 5 Newsletters produced in 2023 most viewed/downloaded were:

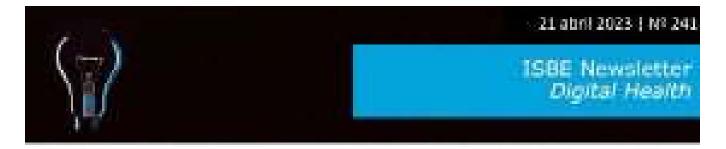

- 1. <u>ISBE Newsletter Saúde Digital nº 237</u>: <u>Intervenções de Saúde Digital para</u> <u>doentes adultos com hipertensão arterial</u>
- 2. <u>ISBE & Cochrane Portugal Newsletter nº 240</u>: **Exercício físico e inteligência** artificial na doença de Parkinson
- 3. <u>ISBE & Cochrane Portugal Newsletter nº 268</u>: **Exame clínico na lombalgia** <u>aquda</u>
- 4. <u>ISBE & Cochrane Portugal Newsletter nº 239</u>: **Intervenções para reduzir o**<u>uso de Tomografia Computorizada (TC) no serviço de urgência</u>
- 5. <u>ISBE Newsletter Saúde Digital nº 241: Validação do score e-DASTHMA</u>

 para auto-reporte do grau de controlo da asma

ISBE Newsletters are archived on the website Cochrane Portugal.

ISBE Newsletters can be found <u>HERE</u>. If you wish to subscribe to the Newsletter, sign up <u>HERE</u>.

7. SHORT COURSES

7.1. Medical Writing

ISBE and **Associação Portuguesa de Medical Writers (APMW)** organized a short course on **MEDICAL WRITING** on 3 February 2023 lectured by 3 faculty members.

A total of 51 participants attended this course.

7.2. Systematic Reviews (Introductory Level)

ISBE and **Cochrane Portugal** organized a short course **SYSTEMATIC REVIEWS** for beginners on 22 November 2023 lectured by 2 faculty members from <u>Cochrane Portugal</u> and <u>FMUL</u>.

A total of 20 participants attended this course.

Faculdade de Medicina da Universidade de Lisboa | Edifício Reynaldo dos Santos, Piso 3
Av. Prof. Egas Moniz | 1649-028 Lisboa, Portugal
NIPC: 515 563 153

7.3. Pharmacy Services Research

ISBE organized a short course **PHARMACY SERVICES RESEARCH** for community pharmacists which took place in two consecutive webinar sessions on 23 May and 20 September 2023 sponsored by <u>Tecnimede Group</u>.

More than 130 participants attended on average each session.

7.4. Matching-Adjusted Indirect Comparison (MAIC)

ISBE organized a short course **MATCHING-ADJUSTED INDIRECT COMPARISON** in September 2023 at the request of and sponsored by a pharmaceutical company for their staff.

7.5. Public Procurement of Medicines

ISBE organized a short course **PUBLIC PROCUREMENT OF MEDICINES** in December 2023 at the request of and sponsored by a pharmaceutical company for their staff.

7.6. Basic Principles of Health Economics

ISBE researcher collaborated as a lecturer in the Workshop **BASIC PRINCIPLES IN HEALTH ECONOMICS** organized by the <u>International Pharmaceutical Federation</u>
(FIP) Pharmacy Practice Research Special Interest Group (PPR SIG) in July 2023.

7.7. Real-World Evidence

ISBE researchers collaborated as lecturers in the MasterClass **REAL-WORLD EVIDENCE IN HEALTH** organized by <u>Sociedade Portuguesa de Farmacêuticos dos</u>
<u>Cuidados de Saúde (SPFCS)</u> in October 2023.

8. ANNUAL EVENTS

8.1. 4th Annual Event

The **ISBE** 4th Annual Event co-organized with **FFUL**, initially planned for November 2022, took place on 2 February 2023 under the key theme **REAL-WORLD EVIDENCE IN CLINICAL AND HEALTH TECHNOLOGY ASSESSMENT** and it was sponsored by Roche, Boehringer Ingelheim, Bial, Tecnimede, and PLMJ, with the institutional support of Ordem dos Farmacêuticos.

This was a hybrid conference and approx. 60 participants attended the event.

Faculdade de Medicina da Universidade de Lisboa | Edifício Reynaldo dos Santos, Piso 3
Av. Prof. Egas Moniz | 1649-028 Lisboa, Portugal
NIPC: 515 563 153

8.2. 5th Annual Event

We discussed **DIGITAL HEALTH: EMERGING HEALTH TECHNOLOGIES** at the **ISBE** 5th Annual Event held on 22 November 2023 with 3 speakers and a panel session marking the return of exclusive in-person format at our annual event with a record attendance of approx. 90 participants.

Speakers from <u>Health AI</u>, <u>Deloitte</u>, and <u>SPMS</u> discussed the state-of-the-art in digital health research and artificial intelligence, digital health transformation in Europe, and the use of digital health data for research purposes in Portugal, followed by a panel session with leading experts representing patients, digital health start-ups, med tech companies, and the pharmaceutical industry.

The event also included a pitch competition on digital health and was sponsored by <u>Janssen</u>, <u>Tecnimede</u>, <u>Boehringer Ingelheim</u>, <u>Medtronic</u>, <u>Glintt</u>, <u>Siemens Healthineers</u>, and <u>ADIFA</u>, with the institutional support of <u>Ordem dos Farmacêuticos</u> and <u>PLMJ</u>.

9. JOINT CONFERENCES

9.1. Conference European Health Data Space

We discussed **EUROPEAN HEALTH DATA SPACE (EHDS)** with 3 speakers from <u>PLMJ</u>, <u>ISCTE</u>, and <u>MEDICEUS</u> in a joint conference organized by <u>ISBE</u> and <u>PLMJ</u> on 21 June 2023 and sponsored by <u>PLMJ</u> and attended by approx. 50 participants.

Speakers discussed the legal framework for EHDS, the XpanDH Project, and challenges in EHDS for the health system, followed by a comment by <u>APIFARMA</u>.

NIPC: 515 563 153

9.2. Scientific Conference Ketamine Psychotherapy

We discussed **KETAMINE PSYCHOTHERAPY: CLINICAL EVIDENCE & BRAIN MECHANISMS** in a joint conference organized by **ISBE, ISPA,** and **The Clinic of Change** on 20 September 2023 and sponsored by **The Clinic of Change**, with the institutional support of **PLMJ**.

The keynote address from Professor David Nutt on the pharmacology behind ketamine psychotherapy was followed by a panel discussion from subject-matter experts from psychiatry, clinical research, bioethics, psychology, and pharmacology and thereafter with questions from the audience.

Nearly 100 participants attended this event.

10. EXTERNAL SCIENTIFIC CONFERENCES

ISBE attended 20+ scientific conferences in 2023. Below are major highlights:

- Choosing Wisely International Meeting (Lisboa, Feb 2023)
- XII Congresso Nacional de Patologia Clínica (Figueira da Foz, Mar 2023)
- 21st European Congress of Internal Medicine (Athens, Mar 2023)
- Conference Health Cluster Portugal Advancing High-Value Health Outcomes (Lisboa, Mar 2023)
- Fórum Nacional da Saúde (Porto, Apr 2023)
- 5º Conferência Anual de Saúde Pública da RedeSaúde (Lisboa, May 2023)
- Instituto Português de Oncologia Scientific Meeting (Lisboa, May 2023)
- Fórum Desafios da Saúde Cardiovascular (Lisboa, Jun 2023)
- 6th International Congress of the Egas Moniz Center for Interdisciplinary Research (Monte da Caparica, Jul 2023)
- Conference Ketamine-Assisted Therapy: A Paradigm Shift in Mental Health (Lisboa, Jul 2023)
- International Pharmaceutical Federation (FIP) Webinar Vaccination: Benefits Beyond Specific Disease Prevention (online, Aug 2023)
- 27th Cochrane Colloquium (London, Sep 2023)
- 5th International Conference on Health Care Systems Engineering (Lisboa, Sep 2023)
- Conferência Infarmed Utilização de Dados em Saúde (Carcavelos, Set 2023)
- Global Health Forum (Cascais, Sep 2023)
- VIII Congresso Nacional de Estudantes de Farmácia (Porto, Sep 2023)
- X Congresso Nacional dos Estudantes de Medicina (Lisboa, Oct 2023)
- 2º Painel Ibero-Americano e 1º Internacional de Prática Baseada em Evidências (online, Oct 2023)

11. EXTERNAL AND INSTITUTIONAL AFFAIRS

In 2023, **ISBE** met with **14+** potential funders to present our portfolio of services.

We continued to develop relationships and engagement with our Institutional Associates <u>FFUL</u> and <u>FMUL</u>, and our Partner Associates <u>ANF</u>, <u>APHP</u>, <u>APIFARMA</u>, <u>Plataforma Saúde em Diálogo</u>, and <u>MedicineOne</u>. We attended the inauguration of the newly elected governance bodies of <u>APIFARMA</u>. We collaborated in meetings of the Institute for Preventive Medicine and Public Health (IMP-SP) of <u>FMUL</u>.

We engaged in meetings and contacts with <u>Cochrane</u> International, the Pharmaceutical and the Medical Societies [<u>Ordens dos Farmacêuticos</u> e dos <u>Médicos</u>], <u>AICIB</u>, <u>Fundação Ageas</u>, <u>Fundação Calouste Gulbenkian</u>, <u>Fundação Luso-Americana para o Desenvolvimento (FLAD)</u>, <u>Health Cluster Portugal</u>, <u>ICHOM</u>, <u>Instituto Português de Oncologia (IPO)</u>, <u>Sociedade Portuguesa de Literacia em Saúde (SPLS)</u>, <u>SPMS</u>, med tech start-ups, policy stakeholders, experts, academia, students, and patients' representatives. <u>ISBE</u> was represented at the anniversary ceremonies celebrating 30 years of <u>Infarmed</u> and 20 years of <u>Associação Portuguesa de Medicamentos Genéricos e Biossimilares (APOGEN)</u>.

We formalized collaborative agreements with <u>PLMJ</u> and <u>The Clinic of Change</u> in innovative areas around health legal framework and mental health.

ISBE is proud to host <u>Cochrane Portugal</u> at its headquarters and to support scientific communication, such as summaries in Portuguese of published evidence. During 2023, <u>Cochrane Portugal</u> collaborated in meetings of its research centers at <u>FMUL</u>, <u>FMUC</u>, and <u>FMUP</u>, and affiliated centers at the Faculty of Health Sciences, <u>Universidade da Beira Interior</u>, and the <u>National School of Public Health (ENSP)</u>, <u>Universidade NOVA de Lisboa</u>.

12. COMMUNICATION

In 2023, we continued to invest considerable time in making **ISBE** more visible to

the national and international potential Funders, Partners, Healthcare and

Professional Organizations, Patients, Researchers, Academia, and Students.

Our ISBE LinkedIn account had 2,397 followers in 2023 (+66% vs 2022). This

network of followers is diverse with a special focus on potential funders and relevant

stakeholders, and it is now the most important social media used by ISBE to increase

visibility and promote our portfolio of services.

We have invested time in updating and increasing our database of contacts. We

communicated with potential funders every month to request meetings to present

our portfolio of services and/or explore research consulting opportunities through

Mailchimp (mass mail platform).

ISBE's Facebook page has remained stable at 1,624 followers by the end of 2023

(+0.9% vs 2022).

The <u>ISBE website</u> had 8,723 page views in 2023 (+15% vs 2022).

Photo and video coverage of 2023 events were disseminated on social networks, the

website, and the media.

A scheduled communication plan was used to promote registration in and sponsorship

of **ISBE** events, joint conferences, and short courses held in 2023.

13. MANAGEMENT

13.1. Governing Bodies

The Governing Bodies held the following meetings in 2023:

Executive Committee: 17 working meetings

Board of Directors: 4 meetingsSupervisory Board: 3 meetingsGeneral Meeting: 3 meetings

No meetings of the Remuneration and Subsidies Committee, Scientific Board, or Advisory Board were held in 2023.

ISBE Associates voted and approved:

 1) ISBE Annual Work Plan & Budget 2023; 2) Change in member of Board of Directors proposed by FMUL, at the <u>ISBE</u> General Meeting on 8 February 2023.

INSTITUTO DE SAÚDE BASEADA NA EVIDÊNCIA (ISBE)

E E

Annual Report & Financial Statements 2023

1) Annual Report & Financial Statements 2022; 2) Amendment of ISBE Articles of the Association; 3) Admission of three new Associates; 4) Elections of ISBE Governing Bodies 2023-2026; 5) Appointment of ISBE Scientific and Advisory Boards 2023-2026, at the ISBE General Meeting on 24 May 2023.

Work Plan & Budget 2024, at the <u>ISBE</u> General Meeting on 14 December 2023.

The admitted Associates are depicted in this Report and on the **ISBE** website.

The elected **ISBE** Governing Bodies composition for 2023-2026 is published at the end of this report and on the **ISBE** website.

13.2. Executive Management & Staff

ISBE Executive Management & Staff is composed of 6 members (3 are Ph.D.): 3 Executive Committee Members (President and Executive Director who are also Research Principal and Senior Researcher RWE & Patient-Centered Research, respectively, with responsibilities in leading research projects, and a third non paid member who is also a Member of the Board of Directors), one Administrative & Financial Assistant, and two researchers (Senior Researcher in Health Economics & Outcomes Research and Researcher in RWE & Qualitative Research).

The President and the Executive Director are also retired Full Professor and Invited Assistant Professor, respectively, at FMUL. The Researcher in RWE & Qualitative Research is an Invited Assistant Professor at IUEM.

The executive management of **ISBE** was carried out by the Executive Committee with the support of the Administrative & Financial Assistant.

The Executive Director carried out daily administrative, financial, and project management.

INSTITUTO DE SAÚDE BASEADA NA EVIDÊNCIA (ISBE)
Faculdade de Medicina da Universidade de Lisboa | Edifício Reynaldo dos Santos, Piso 3
Av. Prof. Egas Moniz | 1649-028 Lisboa, Portugal
NIPC: 515 563 153

The Executive Director and the Senior Researcher in Health Economics & Outcomes Research drafted all project proposals/budgets submitted in 2023 to potential funders.

We extended our accounts payable time to 60 days, increased the proportion charged to clients in the first invoice to 60% of total payment, controlled our ratio of project costs to project revenue at <10%, and improved our accounts receivable procedure.

In February, our former administrative & project manager ceased her collaboration, and we recruited an administrative & financial assistant who joined ISBE in March. This replacement took one month and caused some operational constraints.

We continued to develop/refine Standard Operating Procedures on 1) Statutory, Legal, and Regulations; 2) Finance; 3) Accounts; 4) Communication and Events; 5) IT, Data Protection, and Logistics; 6) Human Resources; 7) Operations Project Development; 8) Operations Project Management; 9) Customer Service.

In 2023, ISBE operated in hybrid mode (in-office and remote) despite continuing heavy maintenance work at the building of our headquarters.

We continued to support Associates, Governing Bodies, Researchers, and Funders.

14. RESEARCH TEAM

In 2023 research projects were conducted by the **ISBE** research team:

- António Vaz Carneiro | President & Research Principal
- Suzete Costa | Executive Director & Senior Research Director, RWE & Patient-Centered Research
- Catarina Silva | Senior Researcher, HEOR
- João Pedro Aguiar | Researcher, RWE & Qualitative Research
- Luís Rocha | Senior Research Consultant, Market Access, Pricing & HTA
- Teresa Guerreiro | Senior Research Consultant, Market Access, Pricing & HTA
- Juan Rachadell | Research Consultant, Digital Health
- Maria Inês Teodoro | Junior Research Consultant, Epidemiology & RWE

16. THANK YOU TO RESEARCH SPONSORS & DONORS

ISBE is grateful to the following **19 Sponsors** for funding our work in 2023 (**highest** contributions ranked from left to right, top to bottom):

ISBE also thanks the generosity of the following **7 Donors** for their in-kind contributions in 2023:

- <u>Universidade de Lisboa</u> for providing free access to its email domain, software packages, and network.
- **FMUL** for supporting the agreement concerning ISBE headquarters rental cost.
- **FFUL** for hosting the 4th Annual Event.
- PLMJ for hosting the 5th Annual Event, Conference on European Health Data Space, and Conference Ketamine Psychotherapy.
- Roche for sponsoring travel and hotel cost of speakers at the 4th Annual Event.

- The Clinic of Change for sponsoring travel and hotel cost of keynote speaker and panel members at the Scientific Conference Ketamine Psychotherapy, and for sponsoring registration fee, travel and hotel cost of ISBE researcher at the 2nd International Conference on Systems Medicine, AI & Drug Repurposing.
- Ordem dos Farmacêuticos for providing participants' badge holders for our Annual Events.

Please contact us if you would like to request a Research Proposal, fund our Events, donate, or support our activities (<u>isbe@isbe.research.ulisboa.pt</u> or <u>HERE</u>).

17. ECONOMIC AND FINANCIAL OVERVIEW

We use the financial terms for Non-Profits in English, currency amounts in text and tables follow the Portuguese accounting format.

We present an economic and financial overview of the 2023 ISBE accounts.

ISBE uses the Accounting and Financial Reporting Standard for Non-Profit Sector Entities (NCRF-ESNL) approved in Decree-Law no. 158/2009 with changes in Decree-Law no. 98/2015.

As required by Portuguese law, the official Financial Statements in Chapter 21 are in Portuguese.

Revenue

ISBE receives no annual fixed contribution from Private Partner Associates and has

no public funding.

The total revenue in 2023 was € 203.465 (two hundred three thousand four hundred

sixty-five euro) (-48% vs budget; -29% vs 2022), of which € 201.963 was operating

revenue.

Operating revenue was from funded research projects (€181.652; -45% vs budget,

-35% vs 2022), paid registrations in events (€12.311; +137% vs budget, +999% vs

2022), and sponsorship of events (€8.000; -73% vs budget, 700% vs 2022). We had

no funds or donations.

The following sponsors funded our work: MedicineOne, Grifols, Medvance, APIFARMA,

Ferraz Lynce, Janssen, PLMJ, Quantify, Boehringer Ingelheim, Nextep, GSK,

Tecnimede, Towa, BMS, Roche, Glintt, Medtronic, Siemens Healthineers, and ADIFA.

Despite the increase in the number of funded research projects in 2023 (+7 vs 2022),

the revenue from projects was substantially lower vs. 2022. This is partly due to the

lowering prices per project to become competitive against other scientific consulting

companies and increase the number of winning proposals, and partly due to deferred

revenue from 2021 to 2022 which did not occur from 2022 to 2023. We have also

experienced longer decision processes from the pharmaceutical and tech industry.

A small amount of € 1.501 in other revenue refers to indemnity from no previous

notice from outgoing staff administrative & project manager.

Accounts for 2023 do not reflect in-kind contributions from Universidade de Lisboa,

FMUL, FFUL, PLMJ, Roche, The Clinic of Change, and Ordem dos Farmacêuticos.

54

Expenses

Total expenses in 2023 were € 216.359 (two hundred sixteen thousand three

hundred fifty-nine euro) (-32% vs budget and -24% vs 2022), of which 85.3% were

staff costs and 13.9% were External Supplies and Services.

Remuneration and Pay Policy for Staff

Since its foundation, **ISBE** has been committed to ensuring it pays staff fairly and in

a way that ensures it attracts and retains the right skills to have the greatest impact

in delivering its mission. It aims to pay fair remuneration that is competitive within

the private health research sector, proportionate to the complexity of each role, and

in line with financial sustainability.

The Remuneration Committee deliberated, at its meeting held on 4 February 2020,

on the following: remuneration package for Executive Committee Members for

executive management, subsidy for the President of Scientific Board, compensation

terms per meeting attendance for the Board of Directors, and compensation terms

per scientific opinion issued by Scientific Board Member at the request of the

Executive Committee.

This decision was informed by recommendations from the Boston Consulting Group

(BCG) prior to the foundation of **ISBE**, and by remuneration practices in similar

private organizations in Portugal. The deliberation of the Remuneration Committee is

in the minutes of the meeting.

The Executive Committee decides on other current and future staff remuneration as

part of its consideration of the Annual Plan & Budget.

S B E

Staff costs

Staff costs in 2023 were € 184.476 (-13% vs budget and -14% vs 2022).

In 2023 total staff costs included 1 Executive Committee Member (0.6 FTE), 1 Administrative & Financial Assistant (1 FTE), 1 Senior Researcher in Health Economics & Outcomes Research (1 FTE), and 1 Researcher in RWE & Qualitative Research (0.42 FTE). It also included the President (0.6 FTE) between January and October. The President is on temporary suspension of remuneration since November and throughout 2024 until projected revenue is achieved, as per the proposal set forth by the Executive Committee and approved by the Board of Directors at their 22nd meeting held on 15 November 2023.

In 2023, it was still not possible to remunerate the third member of the Executive Committee due to financial constraints.

External Supplies and Services

External Supplies and Services in 2023 were € 29.997 (-72% vs budget and -57% vs 2022). This decrease vs the previous year was a result of the suspension of rental costs paid to FMUL from April onwards and fewer fees paid to sub-contracted research consultants as a result of both less project revenue and using the resident staff for most research projects conducted in 2023 while limiting sub-contracted research consultants to expertise areas not covered by the resident team.

37% (€ 11.056) of External Supplies and Services were fees paid to sub-contracted consultant researchers in funded projects (-83% vs budget and -72% vs 2022). In 2023, 92% of project expenses were paid to: Juan Rachadell (Project Literature Review), António Luís Rocha (Project Market Access), ActOne (purchase of data), Teresa Guerreiro (Project Market Access).

E E

Annual Report & Financial Statements 2023

 31% (€ 9.412) were specialized services, including accounting services, financial auditing services, and website maintenance (-32% vs budget and +11.6% vs 2022).

• 31% (€ 9.242) were other services, namely rental costs paid to FMUL for ISBE headquarters, other services (management costs paid to the supplier for event registration and registration payments management), and communication costs (~61% vs budget and -57% vs 2022).

• 0.7% (€ 209,23) were office supplies and equipment.

• 0.3% (€ 78,06) was travel and mission.

OBS.: ISBE considers 44% (\in 13.270) for sub-contracted consultant researchers (instead of 37%; \in 11.056) and 24% (\in 7.198) for specialized services (instead of 31%; \in 9.412) for comparison with projected costs in budget due to differences in the accounting classification considered by accountants.

In 2023, **ISBE** did not pay compensation per meeting attendance to the Board of Directors, as a cost containment measure. No scientific opinions were required from the Scientific Board.

A small amount of € 1.886 in other expenses includes a donation to Associação Portuguesa de Medical Writers (APMW) as a token of their contribution with a lecturer in a short course, as well as adjustments in staff costs from previous years.

Net Loss

As a result of lower revenue, we ended 2023 at a net loss of € 12.975 (twelve thousand nine-hundred seventy-five euro).

On 31 December 2023, **ISBE** did not have significant noncurrent assets. **ISBE** owns the furniture and equipment in rooms 3.40, 3.41, 3.42, and 3.43 of Edifício Reynaldo dos Santos, of no market value, donated by Partner Associate ANF in 2021, as per the signed donation agreement and inventory of assets.

INSTITUTO DE SAÚDE BASEADA NA EVIDÊNCIA (ISBE)
Faculdade de Medicina da Universidade de Lisboa | Edifício Reynaldo dos Santos, Piso 3
Av. Prof. Egas Moniz | 1649-028 Lisboa, Portugal
NIPC: 515 563 153

Current assets include values of cash and bank deposits (€ 6.589), and accounts receivable from Medvance, APIFARMA, Janssen, GSK, BMS, Medtronic, and Glintt (€ 46.532). Accounts receivable also include advance payment from Fundação Calouste Gulbenkian, which complements current liabilities in the same amount.

On 31 December 2023, **ISBE** had no long-term liabilities, and there were no bank loans for financing or provisions. Current liabilities of \in 55.187 included: other current liabilities such as adjustments in holiday compensation, invoices from research consultants received in December 2023, remunerations, advance payments from Bial and Fundação Calouste Gulbenkian, and reimbursement of expenses to staff (\in 32.682); accounts payable (\in 12.486); and current liabilities concerning the State referring to VAT, Social Security, and IRS withholding amounts (\in 10.019).

ISBE had a structure of Equity Funds of -3% on the total balance sheet. The Equity Funds of € -1.678 correspond to the sum of reserves (€ 5.000), the profit carried forward to 2023 (€ 6.297), and the net loss for the year 2023 (€ -12.975).

17.3. Tax and Fiscal Reporting

The Board of Directors informs that **ISBE** does not present overdue debts to the State, under the terms of Decree Law 534/80, of 7 November.

In compliance with Decree no. 411/91, the Board of Directors informs that **ISBE**'s situation before Social Security is settled within the legal deadlines.

17.4. Subsequent events

There were no relevant subsequent events that required adjustments or communication of the accounts for 2023.

18. RISKS AND UNCERTAINTIES

Organizational risk in 2023 was marked by inflation, uncertainty, and cost containment from potential clients. **ISBE** operates in a rapidly changing environment that involves other risks and uncertainties related to the nature of our operations, our industry, and the economic environment. Below is a summary of risks that could affect our research, operations, and financial results:

- Our research and operations have been and may be affected by the war in Ukraine/Russia, or other highly disrupting external factors.
- The potential loss or delay of contracts could adversely affect our results.
- The onset of a project may not occur in the same financial year as the first installment invoice(s) issued upon contract award.
- Our financial results may be adversely affected if we underprice our proposals, overrun cost estimates, or experience delays in project timelines.
- If we are unable to attract suitable researchers for our sponsored research studies or lose key researchers, our development goals might suffer.
- Our success relies on our ability to protect our intellectual property rights in proposals.
- IT security breaches could expose us, our sponsors, our data suppliers, or others to risk of loss.
- Our relationships with existing or potential sponsors who compete with each other may prevent other sponsors or potential sponsors from using our services.
- If we fail to perform our research following contractual requirements, regulatory requirements, and ethical standards, we could be subject to costs liability, or reputation damage.
- We may be affected by pharmaceutical policy decisions.

19. LOOKING AHEAD

As we look ahead, despite risks and uncertainties, as of February 2024, we expect to

increase the number and revenue of funded research projects, while pursuing other

sources of additional complementary revenue, such as sponsorship of events.

We are investing in maximizing the utilization of our resident research team while

also continuing to attract external consultants, hired per project, with complementary

skills and expertise in relevant research areas with high demand. We will continue to

control staff costs in line with revenue growth.

Investing in selected pro bono research projects with relevant collaborations is

another important goal to consolidate and showcase expertise in patient longitudinal

data and foster agreements with relevant patient database owners.

Plans also include exploring joint research proposals in a consortium for financial

streams from European funding for research with external support.

We will pursue increasing patient engagement in our research projects and events,

and dialogue with relevant policy, practice, and research stakeholders.

The current Board of Directors wishes to thank ISBE Governance Bodies 2019-2022

who formally ceased their mandate in May 2023 for all their work, dedication, and

commitment to ISBE and welcome Governance Bodies 2023-2026. We also welcome

new Research Associates Professors Afonso Cavaco and Rui Nunes, and new Partner

Associate MedicineOne admitted in 2023.

Finally, we thank the generous support and hard work of our **Associates, Governing**

Bodies, and **Executive Staff** in the challenging year 2023, and we look forward to

continuing working with them.
